

TALIA

REDUCING BODY PRODUCTS

TALIA

LINE

It takes its name from one of the three graces, a divinity linked to beauty and perfection. An extremely valuable line based on controlled-release Caffeine Microlipids, it stimulates the processes of lipolysis, thus helping to eliminate excess fat. It is a line consisting of Caffeine (draining and lipolytic action), Centella asiatica (stimulation of microcirculation), Sea Oak (it promotes fluid exchange), Marine Collagen (moisturizing and elasticizing action). Line composed of active ingredients such as: Caffeine microlipids (lipolytic and draining), Red Vine (antioxidant, vasoprotective), Green Tea (draining), Guarana (energizing).

TALIA

■ TALIA PERFECT BODY CONCENTRATE – 125 ml

REDUCING BODY SERUM

Valuable concentrated serum formulated with Caffeine Microlipids, Ivy and Laminaria Algae, specially designed to assist in the treatment of cellulite and fat.

FUNCTIONAL ACTIVE INGREDIENTS:

Ivy Microlipids, Caffeine, Laminaria Algae: they have a lipolytic and anti-cellulite action, they activate blood microcirculation and regulate capillary permeability. In the form of Microlipids, they are able to prolong their bioavailability and have better absorption in the skin.

Caffeine: with anti-cellulite and anti-adipose action, it has lipolytic and thermogenic potential. It stimulates microcirculation, it promotes drainage and removal of excess fluid.

Caffeine: with anti-cellulite and anti-adipose action, it has lipolytic and thermogenic potential. It stimulates microcirculation, it promotes drainage and removal of excess fluid.

Red Grapevine: it has antioxidant properties, it has a vaso-protective action by reducing capillary permeability and increasing the resistance of the vessel walls.

Green Tea: it performs a draining action and promotes microcirculation.

Guaranà: rich in caffeine, it has energizing, toning and stimulating properties.

Vitamin E: it has an antioxidant effect, protecting the skin from ageing caused by the formation of free radicals.

HOW TO USE:

Apply on the area to be treated by making circular movements until it is completely absorbed.
