## ESSENTIAL **BODY PRODUCTS**

# BASIC LINE

# REA

From the divinity associated with the Great Earth Mother comes the Basic Line for the preparation of your Body.

In synergy with ultra-delicate surfactants, they ensure a deep cleansing, optimal for making the skin more oxygenated, revitalized and receptive to subsequent treatments.

Indicated for the treatment of asphyxiated skin, before and after sun exposure, it visibly makes the skin softer, brighter and more relaxed.

# ▪ REA CLEANING PEEL – 200 ml

## DELICATE EXFOLIATING CLEANSER

Non-aggressive exfoliating cleanser, obtained from a mixture of natural acids, A.h.a., and a new generation of gentle, non-irritating surfactants that give a smoothing and silky effect.

Its use is aimed at cleansing and exfoliating the epidermis, preparing it to receive all subsequent treatments in the best possible way.

FUNCTIONAL ACTIVE INGREDIENTS:

**Ultra-delicate dermocompatible surfactants:** clinically tested, they gently cleanse the skin, giving an exceptional velvety touch.

**Fruit acids:** Glycolic Acid, Lactic Acid, Malic Acid, Tartaric Acid intervene in the renewal processes of the stratum corneum, accelerating the cell turnover and thus increasing the vital skin layers. They increase the brightness of the skin and improve the hydration and elasticity of the stratum corneum.

**Moisturizing micro-ingredients:** they have a super-moisturizing action, allow controlled release on the skin and increase the duration of the moisturizing effect.

HOW TO USE:

Cleanse with Rea Cleaning Peel, an exfoliating cleanser made from a mixture of natural acids such as A.h.a., which provide a smoothing and silky effect.

# ▪ REA GUARANA' SCRUB – 500 ml

## SCRUB WITH ENERGIZING ACTION

It contributes to the mechanical elimination of dead cells in the stratum corneum. Formulated with finely calibrated powder obtained from the Guarana fruit, it contains substances with an emollient, nourishing and moisturizing action. It leaves the skin clean, radiant and smooth.

FUNCTIONAL ACTIVE INGREDIENTS:

**Guaranà Exfoliator:** finely calibrated powder obtained from the guarana fruit. It contains a significant amount of Guaranine, a substance very similar to Caffeine with strong stimulating and energizing properties. Guarana also contains valuable substances such as Theobromine and numerous minerals.

**Fruit acids:** Glycolic Acid, Lactic Acid, Malic Acid, Tartaric Acid intervene in the renewal processes of the stratum corneum, accelerating the cell turnover and thus increasing the vital skin layers. They increase the brightness of the skin and improve the hydration and elasticity of the stratum corneum.

**Ivy:** it has a strong toning action on all parts of the body that tend to relax and lose tone.

**Centella Asiatica:** it stimulates blood circulation, has an elasticizing, toning and healing effect.

**Echinacea:** it has a re-epithelising, elasticising, toning and antiseptic action.

**Shea butter:** rich in unsaponifiable fractions, it contains Sitosterols, Vitamins and has an intense soothing and nourishing action.

HOW TO USE:

Apply a generous amount to the body and massage in with moistened hands for a few minutes. Remove with plenty of water.

# REA

- ## REA OSMOCONTROLLER CONCENTRATE – 200 ml

### OSMOCONTROLLER SERUM FOR BOTH FACE AND BODT

A serum formulated with Liquid Crystals which, thanks to their chemical-physical characteristics similar to those of the epidermis, are able to increase the absorption of functional substances. It contains a special complex of marine origin capable of performing an osmomobilizing action.

The presence of micro-ingredients guarantees the maintenance of an optimal degree of hydration.

FUNCTIONAL ACTIVE INGREDIENTS:

**Marine complex of electrolytes, salt, saccharides and peptides: it** has been proven to mobilize water in the interstitial layer of the skin, achieving optimum water balance. It creates a local detoxifying osmotic gradient thanks to the mobilization of fat cells and its power to reactivate the microcirculation. It has a moisturizing, toning and emollient effect.

**Moisturizing micro-ingredients:** they have a super-moisturizing action, allow controlled release on the skin and increase the duration of the moisturizing effect.

**Liquid Crystal Emulsifier:** thanks to its chemical-physical characteristics similar to those of the epidermis, it integrates into the skin barrier, reinforcing its integrity. It significantly increases the transfer of functional substances and skin hydration.

HOW TO USE:

Apply on the area to be treated before starting the treatment itself with the technology and massage until it is completely absorbed.

## ▪ REA WHITE MUD – 1000 g

### MUD WITH DEAD SEA SALTS

Mud-cream formulated with White Clay, Dead Sea Mineral Salts, Caffeine Microlipids, Ivy and Laminaria Algae. It performs an adjuvant action in the treatment of cellulite imperfections.

FUNCTIONAL ACTIVE INGREDIENTS:

**White Clay:** rich in mineral salts capable of improving vital functions and activating tissue defense processes. It contributes to detoxifying and draining activity.

**Dead Sea Mineral Salt:** The minerals contained in these salts help stimulate the skin's natural regenerative process and remove excess fluid.

**Ivy Microlipids, Caffeine, Laminaria Algae:** they have a lipolytic and anti-cellulite action, they activate blood microcirculation and regulate capillary permeability. In the form of Microlipids, they are able to prolong their bioavailability and have better absorption in the skin.

**Centella Asiatica:** it stimulates blood circulation, has an elasticizing, toning, draining and anti-cellulite effect.

**Sea Oak:** it promotes fluid exchange and has a reducing, toning, stimulating and anti-cellulite effect.

HOW TO USE:

Uniformly apply a layer of mud-cream with a spatula or brush on the legs and gluteus. Leave on for about 20 minutes and remove with lukewarm water.
