

# Presso **evo**

## Delicate like massage, effective as technology

What it will treat for you: **edema** and **lymphedema**, **venous** and **lymphatic insufficiency** or **stasis**, first stages of **cellulite**.

The pluses you do not expect:

The pressomassage of the device maximizes the effects of manual massage, leaving the operator free. Pressoevo has leggings and an abdomen band in nylon + pvc, extremely wear-resistant, and 9 specific programs for 6 areas of the body. Stimulating the lymphatic system, it reactivates the circulation, it oxygenates the tissues and it eliminates excess toxins, with visible results since the first session.

Features:

- 9 preset work programs
- 1 section per insole
- 4 independent sections per leg
- 1 section for abdomen
- 10 adjustable pressure levels

**Power:** 230 Vac/50-60 Hz
