ESSENTIAL FACE PRODUCTS

BASIC LINE

REA

From the divinity associated with the Great Earth Mother comes the Basic Line for the preparation of your face. In synergy with ultra-delicate surfactants, they ensure a deep cleansing, optimal for making the skin more oxygenated, revitalized and receptive to subsequent treatments.

Indicated for the treatment of asphyxiated skin, before and after sun exposure, it visibly makes the skin softer, brighter and more relaxed.

REA

▪ REA ENZYME PEELING PHASE 1 – 250 ml

PEELING PHASE 1

Soft emulsion capable of activating the enzyme powder (Phase 2) with a soothing, emollient and softening action.

FUNCTIONAL ACTIVE INGREDIENTS:

Allantoin: it performs a moisturizing and soothing action. It stimulates tissue repair processes, leaving the skin soft, elastic and velvety and protecting it from external aggression.

Glycerine: it performs an emollient and moisturizing action.

Sorbitol: it has a moisturizing and emollient action.

Oxygen Complex: it helps skin cells to optimize the oxygen consumption. It improves cellular metabolic functions slowed down by ageing. It also reduces and controls the release of free radicals.

HOW TO USE:

Mix it with the enzyme powder (Phase 2), following treatment protocols according to the skin type.

REA

▪ REA ENZYME PEELING PHASE 2 – 100 ml

PEELING ENZYMATIC PHASE 2

A powder containing papain, a proteolytic enzyme that removes dead and keratinized skin cells from the epidermis.

FUNCTIONAL ACTIVE INGREDIENTS:

Papaina: it effectively acts by reducing the build-up of flaking stratum corneum and promoting epidermal turnover.

Bentonite: It delicately peels the skin, removing the most resistant scales.

Talcum powder: it has the special feature of giving a pleasant dry feeling and leaving the skin soft and velvety for a long time.

HOW TO USE:

Mix it with the Phase 1 product, following treatment protocols according to the skin types.

REA

▪ REA A.H.A. PEELING – 125 ml

CHEMICAL PEELING

A Peeling formulated with a unique blend of Alpha and Beta hydroxy acids. It also contains an expertly balanced blend of Burdock, Witch Hazel and Helichrysum extracts to help purify the skin. It leaves the skin clear, fresh and pleasantly radiant.

FUNCTIONAL ACTIVE INGREDIENTS:

Fruit acids: Glycolic Acid, Lactic Acid, Malic Acid, Tartaric Acid intervene in the renewal processes of the stratum corneum, accelerating the cell turnover and thus increasing the vital skin layers. They increase the brightness of the skin and improve the hydration and elasticity of the stratum corneum.

Salicylic acid: it has a keratolytic and illuminating action.

Helichrysum extract: it has a rebalancing and soothing action.

Burdock extract: it has cell regenerative, astringent and dermopurifying activity.

Witch hazel extract: it has an astringent, toning and soothing action.

HOW TO USE:

Uniformly apply it to well cleansed face, neck and décolleté with the help of a brush. Leave on for up to 10 minutes. Carefully remove it with plenty of fresh water.

REA

▪ REA BRIGHTENING PEELING – 125 ml

CHEMICAL PEELING

Peeling formulated with a unique blend of Alpha Hydroxy Acids. It also contains an expertly balanced blend of Bearberry, Yarrow and Liquorice to help improve uneven pigmentation in dyschromic skin. It leaves the skin clear, fresh and pleasantly radiant.

FUNCTIONAL ACTIVE INGREDIENTS:

Fruit acids: Glycolic Acid, Lactic Acid, Malic Acid, Tartaric Acid intervene in the renewal processes of the stratum corneum, accelerating the cell turnover and thus increasing the vital skin layers. They increase the brightness of the skin and improve the hydration and elasticity of the stratum corneum.

Salicylic acid: it has a keratolytic and illuminating action.

Yarrow extract: it performs an illuminating, protective and toning action.

Bearberry extract: it has a lightening action due to the competition of the Arbutin it contains with the receptors of the tyrosinase enzyme responsible for melanin formation.

Liquorice extract: it performs a lightening action thanks to the inhibition of the enzyme tyrosinase.

HOW TO USE:

Uniformly apply it to well cleansed face, neck and décolleté with the help of a brush. If necessary, it can be used on a single excessively pigmented area. Leave on for a maximum of 10 minutes. Carefully remove it with plenty of fresh water.
