

ASTREA

OXYGENATING FACE PRODUCTS

ASTREA LINE

The beauty and youthfulness of a face is equivalent to a bright and even complexion. Thanks to the choice of innovative, highly effective active ingredients such as Ozonated Argan Oil, it is possible to achieve visible and lasting results for a brighter, more oxygenated face. The line consists of actives such as:

A.h.a. (Alpha Hydroxy Acids or Fruit Acids, which stimulate cell turnover, thus increasing the radiance of the face and improving its elasticity and hydration).

Ginseng Extract (revitalizing, toning action), Aloe Vera (moisturizing, regenerating and anti-ageing power), Ozonated Argan Oil (oxygen-stimulating), Oxygen Complex (it reduces and combats free radicals), Stabilized Vitamin C Microlipids.

ASTREA

■ ASTREA OXYGEN MASK PODS&LOTION – 12 MASK PODS + 125 ml

OXYGENATING MASK AND LOTION

It contains 12 pcs of mask pods. 100% viscose. It is a concentrated oxygenating serum for air massage equipment.

FUNCTIONAL ACTIVE INGREDIENTS:

Oxygen Complex: it helps skin cells to optimize the oxygen consumption. It improves cellular metabolic functions slowed down by ageing. It also reduces and controls the release of free radicals.

HOW TO USE:

Pour 10 ml of Astrea Oxygen Lotion into the measuring cup and immerse the Astrea Oxygen Mask Pod.

The pod will begin to swell. When all the liquid has been absorbed, unroll it and apply to the face. Leave on for 10 to 15 minutes and remove.

PLEASE NOTE:

For those who have at disposal the Transdermal Vehiculation or Oxygen stimulation technologies, it is possible to work the mask with these technologies.

ASTREA

■ ASTREA OXYGEN CONCENTRATE – 125 ml

OXYGENATING SERUM FOR BOTH FACE AND BODY

Concentrated serum based on Ozonated Argan Oil designed specifically for dull and asphyxiated skin. It performs an oxygenating action, stimulating the skin's natural physiological defense processes. It contains a complex of vitamins capable of fighting the formation of free radicals that damage the skin.

FUNCTIONAL ACTIVE INGREDIENTS:

Ozonated Argan Oil: antioxidant, emollient, moisturizing and elasticizing properties. It is one of the most important oils for the skin due to its content of several essential fatty acids and Vitamin E. Active oxygen is incorporated into Argan Oil. In a gradual and controlled manner, the active oxygen is released at the topical level where it is able to promote cell regeneration, have an energizing effect and stimulate the skin's natural defense mechanisms.

Oxygen Complex: it helps skin cells to optimize the oxygen consumption. It improves cellular metabolic functions slowed down by ageing. It also reduces and controls the release of free radicals.

HOW TO USE:

Apply 5 ml of Astrea Oxygen Concentrate with the help of a brush and act on the face, neck and décolleté with light pressure until completely absorbed. Alternatively, Astrea Oxygen Concentrate can be applied by using the Transdermal Vehiculation or Oxygen stimulation technologies.

ASTREA

■ ASTREA OXYGEN MOUSSE – 150 ml

OXYGENATING MOUSSE

An extremely soft and pleasant moisturizing mousse that facilitates the natural cell renewal. It provides an optimal cleansing, toning and moisturizing effect in a single act, allowing the skin to be perfectly cleansed.

FUNCTIONAL ACTIVE INGREDIENTS:

Ultra-delicate and dermo-compatible surfactants: clinically tested, they gently cleanse the skin and provide an exceptional velvety touch.

Moisturizing micro-ingredients: they have a super-moisturizing action and allow controlled release on the skin, increasing the duration of the moisturizing effect.

Ginseng extract: known for its revitalizing, toning and microcirculation stimulating action.

Fruit Acids (Alpha hydroxy acids): they intervene in the renewal processes of the stratum corneum, accelerating the cell turnover and thus increasing the vital skin layers. They increase the brightness of the skin and improve the hydration and elasticity of the stratum corneum.

Lactic acid: an alpha hydroxy acid (A.h.a.) with an exfoliating action. It stimulates the skin to regenerate by promoting the skin cell turnover. It also normalizes the pH of the skin.

HOW TO USE:

Apply a small amount of mousse on the damp or dry area to be treated. Massage to remove impurities, then rinse and dry gently without rubbing.
